Community Resources for Brownfields Redevelopment

THURSDAY, May 6: Osgood, IN at the Southeastern Indiana REMC
712 South Buckeye, Osgood, IN

Improve the quality of life and economic growth of your community by learning more about Brownfield identification and utilizing state and federal resources for Brownfields identification, assessment and cleanup. This 1-day workshop provides information on resources available to communities interested in revitalizing areas or specific sites that are blighted and/or underutilized (brownfields). Speakers include representatives from the U.S. Environmental Protection Agency (EPA), Indiana Brownfields Program, Technical Assistance to Brownfields (TAB) program and State Agencies such as Office of Community and Rural Affairs.

WORKSHOP GOAL

Provide resources and tools to successfully tackle revitalization projects and by doing so, reduce blight and potentially add jobs and increase the tax base in communities.
